

What Can the IG Do For YOU?

➤ **IGs Network Worldwide with other IGs**

IGs are linked worldwide through a “technical channel” with other IGs. Through this networking, often the IG can find answers to questions or issues you are facing that others, elsewhere, have faced already.

➤ **IGs are Available to Conduct Climate Surveys and “Sensing Sessions”**

- Perceptions can be gathered as to what is wrong and what is right with a unit.
- Soldiers can use this opportunity to talk openly and confidentially with someone outside the chain of command.
- Open discussion of Soldiers feelings and thoughts provide valuable insight into strengthening the command.

➤ **IGs Have Knowledge and Information to Share**

- IGs are senior officers and non-commissioned officers who possess a wealth of information, and are very happy to share that knowledge.
- Although conversation with the IG is never off the record, the IG can act as a sounding board and provide valuable guidance on regulations and processes.

➤ **IGs Can Help You Make the Right Connections**

IGs work closely with Soldier-support agencies (e.g., Chaplain, SJA, Red Cross, ACS, AER, etc.) to solve problems. IGs can help you get started in the right direction.
